

Four Oaks Bar Ice Maker 17th though 31st October 2008

Overall savings with EnviroStart fitted >40% providing a payback of <1 year and a first year ROI of >100% based on £0.08p/kWh cost of energy.

Note that the on - off time periods with EnviroStart fitted have increased substantially indicating the substantial reduction in compressor operating temperature - lower temperature of compressor motor, less ice melting though excess and unwanted heating, less power consumed.
